

The Governor's Guaranteed WORK FORCE PROGRAM

TRAINING AWARDS Programs

The **Governor's Guaranteed Work Force Program** plays an important role in attracting new enterprises and encouraging the retention, growth and expansion of established companies in the state. The program provides training and technical assistance to support effective employee training strategies.

The Governor's Guaranteed Work Force Program also gives West Virginia's small businesses a competitive edge by providing access to quality workforce training and raising the skill level of the state's small business workforce.

The Governor's Guaranteed Work Force Program enables West Virginia businesses to improve productivity and profitability, reduce workforce injuries, increase worker morale and provide higher quality products and services.

The Governor's Guaranteed Work Force Program partners with local community colleges, universities and public education to leverage additional resources whenever possible. The lessons learned by businesses, training providers and technical service providers work to the advantage of all West Virginia.

The Governor's Guaranteed Work Force Program training programs act as catalysts for organizational development that enhances workforce performance and provides solutions to complicated human resource issues. As a result, the training programs build each company's capacity to provide effective training to its employees.
