

# Neighborhood Investment Program

## GOOD THINGS HAPPEN WHEN YOU GIVE!

Donors who give to any of the more than 200 nonprofit projects in the Neighborhood Investment Program (NIP) can get credit on certain state taxes.

Businesses and individuals who donate to approved NIP organizations can receive up to 50 percent of the contributed amount in the form of a state tax credit. NIP credits can be applied to state Corporate Net Income Tax, Business Franchise Tax or Personal Income Tax.

Your charitable contribution assists local nonprofit organizations to, in turn, give back to their communities. Your interests may be for a certain cause, such as children's issues, or to help a program in your own city or county.

Contributions can be in the form of:

- Cash
- Personal property
- Real estate
- Stock
- In-kind professional services

The minimum eligible donation upon which a tax credit can be issued is \$500.

Interested contributors can visit [www.wvdo.org/downloads](http://www.wvdo.org/downloads) for a directory of certified organizations.
